# Delegation of Authorities

| | |
|---|---|
| **Policy Name:** | Delegation of Authorities |
| **Policy Owner:** | Abdulaziz Alsenan (CEO) |
| **Date:** | 22/12/2025 |
| **Document Code** | PA-MN-PL-01 |
| **Revision:** | 0.2 |

| | Name | Title | Signature |
|---|---|---|---|
| **Prepared by** | Ahmed Hassan | Chief strategy Officer (CSO) | |
| **Reviewed by** | Abdulaziz Alsenan | Chief Executive Officer (CEO) | |
| **Approved by** | Abdallah Alkasabi | Chairman | |

## 1. Purpose:

This Delegation of Authority (DoA) policy establishes a clear and agile decision-making framework designed to empower PetroApp teams, accelerate growth, and drive accountability across the entire organization.

The core objectives of this policy are to:

- **Align Authority with Strategy:** Ensure that decision-making rights at every level are directly linked to our strategic objectives.
- **Empower Leaders and Teams:** Delegate authority to the most appropriate levels of the organization, fostering a culture of ownership and enabling leaders to manage their teams, budgets, and resources effectively and with confidence.
- **Accelerate Decision-Making:** Eliminate ambiguity and unnecessary bottlenecks, allowing the company to respond swiftly to market opportunities, competitive threats, and customer needs.
- **Provide a Scalable Framework:** Create a consistent, transparent, and scalable DoA structure that supports the company's growth across all countries and functions, from daily operations to major strategic initiatives.
- **Ensure Governance and Compliance:** Uphold financial integrity and ensure that all decisions are made in compliance with local laws, regulations, and our corporate ethical standards.

## 2. Scope:

This policy applies to all employees of the company and its subsidiaries globally. It is of particular importance for all individuals with leadership, management, or budgetary responsibilities, including C-Level Executives, Country Managers, and Department Heads.

Adherence to this Delegation of Authority is mandatory. As our business evolves, this policy will be reviewed and updated regularly to ensure it continues to support our strategic goals and operational realities.

## 3. DoA Classification Framework:

The framework ensures that decision-making authority is placed where it can have the most impact, aligning our operational mechanism with our strategic goals. Every delegation in this policy falls into one of the following classifications:

- **Strategic & Financial Framework:** Decisions that set the company's overall direction, financial guardrails, and corporate governance.
- **Product & Technology:** Decisions related to the core product, infrastructure, and focus on innovation and our competitive advantages.
- **Go-to-Market (GTM) & Growth:** The engine of customer acquisition and revenue.
- **People & Culture:** Decisions about the organization's most important asset—its talent. This includes hiring, compensation, organizational design, and culture.
- **Country & Operational Administration:** Decisions related to local operations, compliance, and day-to-day supporting functions (G&A).

## 4. Authorities' levels:

**Develop**

- "Develop" is an authority level of the initiating entity engaged in any concerned activity and requires its owner to ensure all who need to be involved are involved in the process of development

**Endorse**

- Conduct in-depth review of content developed and recommended, challenge output and rationale, investigate alternative ideas, and contribute to the crafting of the final recommendation.
- Provide formal support to the presented recommendation.
- "Endorse" authority level represents a blocking decision right where-by the owner of the authority may block the process of approval until such time that its concerns are addressed.

**Approve**

- Grant a formal written approval on the presented/ suggested recommendation.
- "Approve" authority level is a pre-requisite for implementation of the decision.

**Notes:**

- In the event of any inconsistency, ambiguity, or contradiction between the provisions of this Delegation of Authority policy and the Shareholders' Agreement, the provisions of the Shareholders' Agreement shall prevail.
- Transactions must not be divided or split into smaller amounts to circumvent approval limits or thresholds. The total value of the commitment, contract, or expenditure shall be considered in determining the appropriate approval level.

## 5. Delegation of Authority Matrix:

## 5.1 Strategic & Financial Framework

| Decision | Develop | Endorse | Approve |
