PetroApp®

1. Purpose:

The purpose of this process is to define the procedures for managing PetroApp's IT infrastructure, ensuring reliability, security, and scalability. It outlines the roles and responsibilities of the Infrastructure Team to maintain optimal performance and compliance with company standards.

2. Scope:

This process applies to the IT Infrastructure Department of PetroApp and covers all IT infrastructure components in all countries that PetroApp operates, including:

- **Network devices** (routers, switches, firewalls, VPN, access points)
- **Servers** (Active Directory, WSUS, PDQ, EMS, NTP, shared folders)
- **End-user devices** (laptops, printers, scanners)
- **Software licenses & security tools** (Kaspersky, Microsoft, Google Workspace, FortiClient, Slack)
- **Cloud & collaboration tools** (Office 365, Slack, Email Systems)

3. Definitions

- **VPN**: Virtual Private Network.
- **WSUS**: Windows Server Update Services.
- **PDQ**: Pretty Damn Quick.
- **EMS**: Endpoint Management Server.
- **NTP**: Network Time Protocol.
- **LAN**: Local Area Network.
- **WAN**: Wide Area Network.
- **RBAC**: Role-Based Access Control.
- **ADDC**: Active Directory Domain Controller.

4. Responsibilities:

- Group IT Infrastructure Manager.
- IT Infrastructure Administrator.
- IT Help Desk Admin.

Docusign Envelope ID: 1B699D0C-A6A7-44AB-9435-622ED425F19E

5. Procedures:

5.1 Network & Servers Management:

- **IT Infrastructure Team Responsibilities:**
  - Monitors and optimizes internal network performance, including LAN, WAN, VPN, and FortiGate Firewall.

- **IT Infrastructure Manager Responsibilities:**
  - Implements and administrates internal servers, including:
    - Phone System, Active Directory, WSUS, PDQ, EMS, shared folders, and NTP.
  - Manages IP camera systems (configuration, maintenance, and access permissions).
  - Designs, plans, and updates IT infrastructure to align with organizational needs and industry best practices.
  - Schedules and applies **system updates & patches** via WSUS.
  - Responsible for monitoring **server performance** using system tools and alerts.
  - Configures and maintains network devices such as routers, switches, and firewalls.

5.2 Security & Compliance:

- **IT Infrastructure Manager:**
  - Implements and enforces IT security policies, including:
    - Role-Based Access Control (RBAC)
    - Endpoint protection measures
    - User privilege management
  - Oversees software license tracking and compliance for:
    - Kaspersky, Microsoft, Google Workspace, and FortiClient
    - Maintains an up-to-date Software License

- **IT Infrastructure Team:**
  - Conducts regular IT policy compliance audits and system health checks
  - Ensures adherence to organizational and regulatory security standards

5.3 Vendor Management:

- **IT Infrastructure Manager:**
  - Evaluates IT vendor contracts laptops, licenses, firewalls, Switches, printers, IP phones and access points.
  - Manages Proof of Concept (PoC) for new technologies before deployment.

5.4 Active Directory & User Management:

5.4.1 Administer Active Directory

- **IT Infrastructure Team:**
  - Manages the full lifecycle of user and computer accounts (creation, modification, deactivation).

Docusign Envelope ID: 1B699D0C-A6A7-44AB-9435-622ED425F19E

- Ensures proper Organizational Unit (OU) placement and security group assignments.

- **IT Infrastructure Manager:**
  - Implements and maintains Active Directory Domain Controllers (AD DC).
  - Configures and enforces Group Policy Objects (GPOs) to meet security and compliance standards.

5.4.2 Employee Onboarding/Offboarding

A. Onboarding:

- **IT Infrastructure Team**
  - Creates AD accounts, assigns role-based permissions, and provides access to required systems.

- **IT Infrastructure Manager**
  - Creates corporate email addresses and assigns necessary licenses (e.g., Microsoft 365, Google Workspace).

B. Offboarding:

- **IT Infrastructure Team**
  - Verifies device status, revokes access and retrieves company assets.
  - Promptly disables/terminates AD accounts and removes permissions.
  - Uninstall Licenses applications (Kaspersky, Microsoft Office 365).

- **IT Infrastructure Manager**
  - Revokes license and deactivates email accounts.

C. Employment Changes:

- **IT Infrastructure Team**
  - Updates AD security Group permissions for role/department changes.

5.4.3 Provision Devices

- **IT Infrastructure Team:**
  - Deploy company-configured devices (laptops/desktops) with preinstalled software and security settings.

5.4.4 Device & Software Management

- **IT Infrastructure Team:**
  - Hardware: Set up devices (OS, security).
  - Software: Install approved apps (Office 365, Kaspersky, VPN, etc.).
  - Security: Apply patches, monitor antivirus, report issues.

- **IT Infrastructure Manager:**
  - Policies: Define security/config standards, approve software.
  - Licenses: Manage vendor agreements, ensure compliance.

Docusign Envelope ID: 1B699D0C-A6A7-44AB-9435-622ED425F19E

- Strategy: Plan upgrades, evaluate new tools.

5.4.5 Ticketing Systems

- **IT Infrastructure Manager**
  - Create and Configure Ticketing Systems Channels for IT Department.

5.5 IT Helpdesk:

5.5.1 All end-user IT support requests

A. Centralized Request Channels:

- A dedicated public channel, **#it-service-desk** serves as the primary point of contact for all end-user IT Infrastructure support requests. This ensures all requests are visible to the entire IT Helpdesk team, promoting faster response times.

B. Responding and Escalation Process:

- All new tickets in the **#it-service-desk** channel will be initially sorted by the IT Helpdesk team.
- Based on the nature and complexity of the issue, the ticket will be handled as follows:

C. IT Administrator and Helpdesk:

- Responsible for Resolve Technical Issues related to hardware, software, and connectivity.
- Coordinating with Internet service providers as needed.

➢ **Escalation:** For complex issues beyond their scope, the IT Helpdesk team identifies any tickets that require escalation, they will escalate them to the IT Manager for further review and resolution.
